

PVT systems	IEA SHC Task 60	News 16
<i>Full Title</i>	Application of PVT collectors and new solutions in HVAC systems	
<i>Date</i>	December 10th, 2017	

We are Task 60 !

SHC Exco 82 meeting Outcome

1. Thanks to Korbinian who could present and defend our Task Project at the last Exco meeting in November. We have been approved as Task 60 starting Jan 1, 2018 !
2. There has been a positive vote from the following 13 countries :

DE, AT, DK, CH, UK, Gord, SE, CA, AUS, F, NL, NO, IT
3. A few things were asked to be re-worked by some Exco members and this should be approved by a subcommittee until the end of January 2018. I am working on them.
4. They concern :
 - workplan must be described in more details
 - Subtask D must be described with more précision
 - Subtask D might be split into 2 groups to better disseminate over the world may be with 2 subtask leaders.
5. The subcommittee has Exco members from: Gord, CH, DE
6. National Participation Letters : **you** should ask your Exco member to sign the national participation letter for your country (format available), specifying who is allowed to participate in our Task 60, and to forward the signed letter to me as OA. Austria did already !
7. The OA or the subtask leaders will come to you during January/ February to list what is to be worked on from your side until our meeting 1 ! Please participate !

8. I will open our web site asap so that we will communicate thourh this channel in the future. I will post some content and all newsletter. I might ask you to provide nice illustrations of PVT systems to enrich our communication on www.iea.shc.org
9. Please note our first and next meetings over the 3 years (our meetings should be about 1 month before Exco meetings)

Meeting 1: May 16-17-18, 2018 in Freiburg, Germany (Exco 83 : June 19-21, Swe)
